* Claim based on number of subscribers
1 Available at locally participating programs
2 Equipment may not detect all falls. Undetectable falls can include slow falls, falls from low heights and slides from seated positions. If able, users should always push their button when they need help.
3 Based on the number of detected falls that have been reported to Philips Lifeline by U.S. AutoAlert subscribers for the period of January-July 2012.
4 Lifeline may not always be able to determine your location.
5 Certain limitations subject to third party cellular provider availability and coverage. Signal range may vary.
6 Philips Lifeline wireless communicators connect to the Philips Lifeline Response Centre using the third party cellular provider. No additional wireless equipment is needed. A customer phone number is required to enroll in the service.

It’s your life. It’s your freedom. **It’s your choice.**

### In-the-home solutions

**HomeSafe Standard**
- **Most Economical**
  - Our standard medical alert system is an affordable way to maintain your independence, while being prepared in the event of an emergency.
  - Get access to the help you need 24/7 at the push of a button.
  - Wear your HomeSafe help button as an adjustable necklace or on your wrist like a bracelet or watch.

**HomeSafe with AutoAlert**
- **Added Layer of Protection**
  - This medical alert service with AutoAlert can automatically call for help if it detects a fall. Even if you can’t push the button yourself.
    - More than 300,000 seniors have relied on it to feel safe at home.
    - An excellent choice for those with a history, risk, or fear of falling.
    - Detects more than 95% of true falls and minimizes false alarms.

### On-the-go solutions

**GoSafe System**
- **Most Advanced**
  - Go because you can – with GoSafe. It’s the medical alert system that gives you the freedom to go where you want, when you want.
  - It’s the only mobile system with up to six advanced location technologies designed to help find you in an emergency.

- Get access to live help 24 hours a day, 365 days a year – at home and on the go.
- The AutoAlert feature can automatically call for help if it detects a fall.
- A lightweight, help button allows direct two-way voice communication with a Lifeline Response Associate.

**Lucy D. Lifeline Subscriber**

“Two years ago my MS advanced to secondary progressive and I started to use a cane. I’m a busy, 53 year old wife and mother of two and I wear my Lifeline every day because it allows me to do the things I want to do – on my own and independently. Lifeline isn’t just for seniors and it’s more than a help button. I’m thrilled with the freedom it provides me and many others like me...”

How it works

1. **Summon help**
   - With a simple push of your Lifeline help button you’re connected to our 24/7 Response Centre. With our advanced services, you have the option to include fall detection or locating technology in the event you can’t push your button.

2. **Hear a reassuring voice**
   - A caring Lifeline Response Associate will quickly access your personal profile and assess the situation.

3. **Know help is on the way**
   - If needed, our Associate contacts a neighbour, loved one, or emergency services – based on your preferences – and can follow up to make sure help has arrived.
